Bonus Guides Inside Articles: How Unlocking Works

Free Guides, Challenges & Emails · https://coachluke.com/docs/bonus-guides-inside-articles-how-unlocking-works/

Some of my most popular articles come with a free bonus guide, a printable version of the article's plan, checklist or recipes you can keep. You'll see it as a card in the article with a blurred preview and a **Free with email** label.

Is the article locked?

Never. Every article on coachluke.com is free to read in full. Only the bonus guide is unlocked by email.

How do I unlock a bonus guide?

Tap the button on the bonus card and enter your email. The card unlocks right there on the page with a download button, and I'll email you a copy too.

Do I have to share the article to unlock it?

No. After you unlock, there's an optional share button if you'd like to pass the guide along to a friend. Sharing is never required and doesn't unlock anything.

What's in the bonus guide?

It's built only from what's in that article, so you're getting the plan in a clean, printable format, not new claims or a sales pitch.

What emails will I get?

The bonus guide by email, then my regular no-gimmicks emails. Every email has a one-click unsubscribe link.

The card didn't unlock or the email didn't arrive

Refresh the page and try again. For the email copy, check spam and Gmail's Promotions tab, then see Didn't get your free guide or challenge email?
